

NEWS OF THE DAY.

tions to the effect that the machinists' strike order by them on June 2 has been won from the start is entirely incorrect and that the strike has been a complete failure. Today's dispatches from north, south, east and west state that the strike is being declared "off" and that the men are going back to work by the thousands at the old hours and pay. These men have lost six weeks' pay, which they can never make up. But the "leaders" who ordered the strike lost nothing, sooner or later. But some men apparently like to be humbugged.

FROM WASHINGTON.

(Correspondence of the Alexandria Gazette.)

Washington, July 12.

Capt. Putnam Bradley Strong is still an officer in the regular army, and as such is liable to trial by court martial on charges unbecoming an officer and gentleman. It seems that yesterday afternoon before the press dispatches from San Francisco describing his escapade with a woman there were printed, Strong wired his resignation to Acting Adjutant General Ward. The latter took the telegram to Secretary Root, who said: "Well, I suppose we'll have to accept it." The secretary at that time was not aware that there was any other reason for the resignation than that stated by Strong in the message; namely, business connected with the settling up of his father's estate. However, the acceptance of the resignation was not wired yesterday. This morning the secretary read how Strong and a woman said to bear a striking resemblance to Lady Francis Hope, the actress, had been ejected from a San Francisco hotel where they had registered as "H. L. Hastings" and "wife." He decided, therefore, to help him to the acceptance of the resignation. San Francisco dispatches state that Mr. Strong has admitted his identity with the notorious "Hastings." He had been ordered to the Philippines and was awaiting the sailing of his ship when the story of his liaison became public. A telegram received at the Adjutant General's office previous to that containing his resignation requested permission to sail on the liner Nippon Maru instead of by transport. It was on this ship that the woman in question had engaged passage. Strong returned from the Philippines several months ago as a Major of volunteers and after being mustered out was appointed in the regular army with a commission as Captain and Assistant Quartermaster. He is the only son of late Wm. L. Strong who was Mayor of New York and who died last year. This morning the Secretary of War wired to Strong requesting by mail "complete details of his reasons for resigning."

The State department is informed through its consular representatives in Egypt that the bubonic plague which prevails in many towns there is of a virulent and destructive type, and on account of its rapid development and the exceptionally high rate of mortality, general apprehension and alarm prevail throughout the country. During the week preceding June 19th, 23 cases were reported.

Hong Kong reports to the Marine Hospital Service 200 new cases of plague in one week, making a total of 741 since the recurrence of the epidemic began, of which 689 has been fatal. Six Europeans are among the victims.

The President today wired from Canton the appointment of James I. McCallum, of the District of Columbia, Consul General of the United States at St. Gall, Switzerland, and of George W. Cobb, collector of customs for the district of Albemarle, N. C. McCallum is a son-in-law of the late Senator Sherman of Ohio.

President O'Connell admits that the collapse of the machinists' strike at Cincinnati is likely to have considerable effect on the general strike. He said that while Cuba undoubtedly gravitate toward the United States and be annexed in time, the Cubans first desired to experience the sensation of unrestricted liberty and sovereignty. In other words, Gen. Gomez, after talking "Cuba Libre" for years, would consent to the annexation of that island to the United States after the Cubans had "experienced the sensation of unrestricted liberty and sovereignty." Why, to give a people liberty and then take it from them would be doubly cruel, but Gomez now, as ever, is looking after his own interests and not those of the Cubans. Dispatches from Havana say:

"The utterances of Gen. Maximo Gomez in the United States concerning the annexation of Cuba to that country are criticized by many persons here. There is no present strength to the annexation movement here."

Mr. O'CONNOR, of the order of machinists, when he learned in Washington yesterday that the Newport News shipyard machinists, whom he had "ordered out" six weeks ago, against their will, had returned to work, said: "We can't place any dependence in that style of men, and so far as the future interference on the part of the National Association of Machinists is concerned we wipe our hands of them." Now so far as dependence is concerned the Virginia machinists can place less in Mr. O'Connor than he does in them, for he held out false hopes to the men from the beginning and continued so doing till the end, having virtually wiped his hands of them as soon as he ordered them out and left them to get along the best they could. The machinists were perfectly satisfied with their pay and hours, but outsiders, with no interest whatever in the men and who receive salaries for creating dissension, came along, sowing discord, and against the wishes of the men, "ordered them out." As a consequence, several thousand men in other departments of the yard were rendered idle and were laid off by the company. And now after this loss of time and money, as a consequence of which the families of the employees suffered many privations, the men have gone back to work under the same conditions which existed before the strike.

It now appears that the information sent out from the headquarters of the paid officials of the labor organization

THE STRIKE OFF.

The machinists' strike in Cincinnati, which began May 29 and involved from 5,000 to 7,000 employees, practically has been declared off. A secret mass meeting of strikers was held yesterday, at which a formal report was made that it had been found impossible to procure assistance in money from the headquarters in Washington. As the strike benefit fund is exhausted the strikers were advised to return to work. Already about 600 have applied for reinstatement, and many more will do so today and Monday.

The machinists of the Maryland Steel Company, at Sparrows Point, who went on strike about seven weeks ago, but because the company would not grant them a nine-hour day, met yesterday afternoon at the headquarters of the strikers, 413 Water street, and decided that the strike should be declared off. They also determined to return to work Monday next.

The striking machinists of the various Richmond establishments met at Smith's Hall yesterday, and appointed a committee to wait upon all the proprietors of the shops where they were employed and see if any satisfactory adjustment can be reached which will enable the men to resume work. This meeting has the power to declare the strike off, and may do so today.

The iron trade council has received favorable reports from the nine affiliated unions giving the council authority to effect settlement of the machinists' strike in the city, independent of what is done in the east. The council has, therefore, appointed a committee of five with full power to act, and to meet the employers, should they agree to confer. The strike of the metal polishers has been declared off.

MR. LORILLARD'S ROMANCE.

Spectacular in life, Pierre Lorillard was consistent in arranging a spectacular contest for the millions he left behind when he died. A woman is said to figure in his will. She is not a relative—she was his closest friend. And with dogged adherence to his principle of standing by those who stood by him he has probably named her as his chief beneficiary.

The friendship that existed for many years between the millionaire sportsman and this woman was an open secret in society. When Mrs. Lorillard left her husband the woman who was alleged to have been the cause of the separation took virtual charge of the Lorillard household. To the day of his death their friendship endured.

THE CONVENTION.

The important work of the constitutional convention from now on will be in the committee room. The session yesterday lasted only 20 minutes, although 96 out of the 100 members were in their seats. Many of the members belong to the important committees, and they say it takes their entire time in looking up data and information on the subjects allotted them.

The committee on education has a general discussion of school work, the cost of administering the fund, methods of reducing cost and other details. President Goode presented a communication from Mayor A. A. Moss, of Newport News, in which he offers some suggestions which, in his judgment, if adopted, would settle the suffrage question in the most satisfactory way.

Secretary Button presented to the convention a tabulated statement by counties and cities showing the number of felony and misdemeanor cases begun and ended in each last year. In Wise county 283 misdemeanor cases were commenced, this being the largest number for any city or county.

Secretary Button has, in response to letters sent out to the various counties and cities asking that figures be furnished as to the amount of property used for religious education, charitable and benevolent purposes and other societies exempted from taxation, heard from the following, the total value being given, Manchester, \$122,474; Roanoke, \$291,273; Appomattox, \$64,400; Clarke, \$24,000; Brunswick, \$102,000; Montgomery, \$289,250; Stafford, \$18,000; Fredericksburg and Spotsylvania, \$274,000.

Mr. Pettit, received three days' leave of absence to go home to celebrate his golden wedding. After the motion was unanimously adopted Mr. Pettit held quite a levee, many members going forward to congratulate him.

LORD ROBERTS ON "LEE OF VIRGINIA."—The following is an extract of a letter received a few years ago by Miss Mary Custis Lee from Lord Roberts, the great British general:

"It may be that I shall never be able to carry out my wish of visiting your dear old home, but I hope that some day I shall do so, and that I may then see the monument in the college chapel at Lexington. I shall consider it a privilege to be able to show my respect and admiration for one of the greatest soldiers of any age, 'Lee of Virginia.'"

With kind regards from Lady Roberts and myself, believe me, dear Miss Lee, Yours sincerely, "FRED ROBERTS."

On July 13 at 12:15 o'clock THOMAS LANNON, in the 50th year of his age, died. He was taken to his late residence on Tuesday morning at 9 o'clock, thence to St. Mary's Church, where he will be buried for the repose of his soul. Relatives and friends of the family are invited. Please omit flowers.—(Baltimore and Washington papers please copy.)

When you want a modern, up-to-date physics, try Chamberlain's 8 o'clock and Liver Tablets. They are easy to take and pleasant in effect. Price, 25 cents. Samples free at Richard Gibson's drug store.

Smallpox.—The case of smallpox in the suburbs has been pronounced well by the attending physicians. The premises have been thoroughly disinfected by the formaldehyde process and the quarantine discontinued.

The little girl in town is convalescent. Dr. B. F. Eden, the physician in charge of acting physician for the State Board of Health, expects to be able to order the formaldehyde disinfection within a few days. In the meantime the quarantine regulations will be observed as a precautionary measure. There are now two new cases of the varioloid type below the "Run."—(Manassas Journal.)

When you want a modern, up-to-date physics, try Chamberlain's 8 o'clock and Liver Tablets. They are easy to take and pleasant in effect. Price, 25 cents. Samples free at Richard Gibson's drug store.

VIRGINIA NEWS.

The postoffice at Hudibras, King George county, has been discontinued, mail going to Port Conway.

The Methodist Church Conference for Piedmont Virginia has voted to locate the large Methodist school at Calpeper. Mr. Henry Colbert died at the home of his son, Mr. W. H. Colbert, near Manassas, on Friday last, in his 83rd year.

A terrific wind and rain storm passed over the Winchester section Thursday night, doing thousands of dollars damage in north Frederick county.

The Newport News grand jury is investigating the illegality of slot machines. It is believed that true bills will be found against all slot machine owners.

During a heavy storm in Clarke county, Thursday evening, lightning struck the barn of A. B. Evans, near Millwood, destroying it, with the contents, and stunning a negro man. Loss, \$2,000.

Miss Mary Hamner, about thirty years of age, of Faber Mills, Nelson county, shot and killed herself yesterday at the home and Retreat, Lynchburg, where she was undergoing special treatment.

The school of the chapter of Royal Arch Masons of the State of Virginia Thursday night closed one of its most important and successful annual sessions at Elkton. Much important work was done.

Rev. A. L. Phillips, D. D., of Nashville, Tenn., is in Richmond, and has accepted the office of general superintendent of Sunday schools and of Young People's Societies for the Southern Presbyterian Church.

The Washington Guards, of Fredericksburg, with twenty-six men, left there last night, under command of Lieut. F. H. Revere, for the Buffalo Exposition. At Washington they were joined by the Lynchburg and Danville companies.

Mr. Thomas F. Ryan, a native of Virginia, but now a wealthy citizen of New York, has made a gift of \$250,000 to Bishop Van de Vyver and the Catholics of Richmond for the erection of a splendid cathedral on Laurel street, facing Monroe Park.

Judge J. B. McCabe and Mr. A. H. Throckmorton, of the Leesburg bar, and Mr. H. A. Thompson, cashier of the People's National Bank, of Leesburg, left on Monday for a several weeks' visit through the West. The objective point is Seattle, Wash.

Ed. Payne, the negro who attempted to rape Miss Duncan, at Dublin last June, was hanged at an alkali yesterday. Payne was led to the scaffold by Rev. Leroy Diggs, who offered prayer for the condemned man. Payne and the preacher sang a hymn. After singing, Payne talked for eight minutes, the substance of his discourse being that he had been pardoned of his sins, and was on his way to glory.

Mrs. S. A. Hughes, wife of A. B. Hughes, a farmer living in Prince Edward county, was instantly killed by lightning Thursday night during a severe thunder storm. Mr. Hughes and his wife were in the act of retiring when lightning struck a tree in the yard, and at the same time Mrs. Hughes fell to the floor. The lightning did not strike her but the shock received caused instant death.

A communication from the warden of the penitentiary was received by the State Constitutional Convention yesterday in answer to an official request, stating that there are 971 colored men in the penitentiary, of whom 579 can read and write, 392 being illiterate, and 495 having at some time attended public schools. Of the colored women confined, only two in all, twenty-nine are able to read and write and have attended public schools, while thirty-three are illiterate. A tabulated list was also presented of the felonies and misdemeanors in divers counties of the State.

THEY HAD THE SAME WIFE.

In Manchester, the sister city of Richmond, two citizens are mourning the disappearance of the same wife, and their joint investigations yesterday indicate that the young woman whom both married under romantic and happy circumstances has still an older husband in Petersburg, and perhaps others. Strange to say, the Manchester men are neighbors, and the woman is also well known in that city, and connected with some of the best people there.

Thomas W. Lavender, who married Miss Mabel Irene Haven, believing she was a young lady whose family was destroyed in the Galveston disaster, and was deserted by her at the end of a week, told his story to his sympathetic neighbor, Mr. Joseph Payne, who married Miss Mabel Haven, and who was a romantic way on September 26, 1894, and was shortly deserted by his bride. The two men compared notes and concluded they had married the same woman. Lavender showed Payne a picture of his wife in a family group which she said were all lost at Galveston. Payne declared it was the same picture his wife showed him with a similar story of death by disaster. The men went in company to the commonwealth's attorney with a view of having the woman punished, but her whereabouts are not known, and no action was taken. The inquiry shown by the women in hiding her identity and avoiding a meeting with her former husband, Joseph Payne, and her Manchester relatives is remarkable. She was a very pretty young woman, and both of her husbands here describe her as a charming and fascinating person. She simply left a note on the table for her last husband, saying she had left never to return, and no one has the slightest clue to where she went.

Smallpox.—The case of smallpox in the suburbs has been pronounced well by the attending physicians. The premises have been thoroughly disinfected by the formaldehyde process and the quarantine discontinued.

The little girl in town is convalescent. Dr. B. F. Eden, the physician in charge of acting physician for the State Board of Health, expects to be able to order the formaldehyde disinfection within a few days. TO-DAY'S TELEGRAPHIC NEWS.

Richmond, Va., July 13.—Mr. O'Flaherty offered a resolution in the convention today declaring in the strongest possible terms against the grandfather clause, which he claimed was calculated to build up a voting aristocracy.

The committee on suffrage met but had nothing to give out.

The convention conferred broader powers upon the committee on reduction of expenses.

The convention sat only twenty-five minutes.

Foreign News.

London, July 13.—The Evening Sun says that Mrs. Schalkburg, wife of the Beer commander of that name, has been captured near Waterwall. It is believed she was engaged in carrying Boer dispatches.

Kilcannon Bay, July 13.—Sir Thomas Lipton's new challenger beat the old one by 2-1-2 minutes in a 15 mile heat to windward on Bute Sound today. The sea was smooth and the breeze light. In the race today Shamrock II. showed the best form she has exhibited since she was launched.

Constantinople, July 13.—Aly Nour Bey, the Turkish consul at Rotterdam, has been condemned to life imprisonment for writing against the Sultan. Aly is now at Athens and refuses to accept the invitation of the Porte to return home.

London, July 13.—The county council will shortly send an electrical expert to America to study the electric traction system of that country.

Brussels, July 13.—While Queen Marie Henriette was playing croquet at Spa yesterday, she was overcome by the heat. M. Thieriet, the royal physician, left for Spa last evening.

Passion for Free Homes Proves Fatal.

Wichita, Kan., July 13.—Under a blazing sun, registering 115 at 3 o'clock yesterday afternoon, fourteen women fainted in line before the land office at Lawton, O. T. Three of the women died last evening. The attending physicians told them after they had fainted once that if they did not leave the sun and the jam of the line they would die. But their passion for free homes was too much for their judgment. These and many other women stood in line for two days, and slept in the dust at night. The rush is growing greater. The water supply is giving out and since a fire burned a general store at Mountain View the people hardly know where to look for food.

TELEGRAPHIC BREVITIES.

The condition of Mrs. Jefferson Davis who is sick at Portland, Me., has greatly improved.

The four-story Butte, Mont., hotel was destroyed by fire this morning at 3 o'clock. Several persons were injured by jumping from the windows.

The divorced wife of Dan Hanna, son of Senator Hanna, eluded her former husband and the process servers by leaving the Waldorf-Astoria Hotel, New York, by way of the kitchen and sailing for Europe. Mr. Hanna sought to procure possession of his three children.

Exhausted from searching the negro quarters of Kansas City and examining all the colored people they could find the mob who last night attempted to wreak vengeance on eight colored people confined in the county jail for alleged complicity in the assault on Miss Grace Davis Wednesday night. The two negroes who had been identified as active principals in the tragedy were spirited away during the night.

Mrs. Georgia Davis, who perished herself at Muncie, Ind., Friday to save Ralph Cook from being tried after she had charged him and five others with committing a deadly assault last night to perjury and was sentenced to ten years in the State reformatory.

The boiler on the pleasure steamer Montebello blew up on the Susquehanna river, at Sanbury, Pa., this morning. So far as is known one person was killed and ten injured. Four persons are missing.

Lewis Elkin, whose death is just announced in Philadelphia, is said to have left the bulk of his fortune of more than \$1,000,000 to a charity, the name of which has not yet been disclosed.

Mr. Simon Haas, who was shot by her husband at Eschenau, Pa., yesterday before he committed suicide, died at her home at Wilberon this morning.

SUCCESSFUL AIRSHIP.

Henry Deutch having offered a prize of 100,000 francs for the first successful self-directing balloon, Santos Dumont experimented with his invention on the Champs de Mars, in Paris yesterday. As seen from the Eiffel Tower the result was extraordinary. The balloon obeyed the aeronaut's will, rising and sinking without difficulty. The motor produced a noise resembling that of an automobile. M. Santos Dumont gives a most interesting account of his journey. He left St. Cloud at 3 o'clock yesterday morning. Owing to the trees there was only a small open space that was available for his purpose. Men held the guide ropes of the balloon until it reached the Longchamps race course, around which M. Dumont steered his cigar-shaped balloon several times. Subsequently he extended his operations around the Bois de Boulogne. He wished then to return to St. Cloud, but his assistants shouted: "The Eiffel Tower!" toward which he proceeded. When close to the tower the steering apparatus became disarranged and the balloon rushed toward the lofty structure, threatening to collide with it. M. Dumont, however, managed to steer the airship in a series of curves toward the Trocadero, when he descended to earth and repaired the damage. He then ascended and circled around the Eiffel Tower and then went back to his starting point. Today there will be an official experiment before a technical committee of the Aero Club. M. Aime, secretary of the Aero Club, who watched M. Dumont's trip, is quoted as saying that navigation has been solved. The airship came to the earth as easily and lightly as a bird.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known for Catarrh of the bladder. It is a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and curing the system. It is a blood purifier, destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.

Hall's Family Pills are the best.

The piles that annoy you so will be quickly and permanently healed if you use Dr. Williams' Witch Hazel Salve. Beware of worthless counterfeits. Sold by E. S. Leadbeater & Sons.

THE STRIKE OFF.

The machinists' strike in Cincinnati, which began May 29 and involved from 5,000 to 7,000 employees, practically has been declared off. A secret mass meeting of strikers was held yesterday, at which a formal report was made that it had been found impossible to procure assistance in money from the headquarters in Washington. As the strike benefit fund is exhausted the strikers were advised to return to work. Already about 600 have applied for reinstatement, and many more will do so today and Monday.

The machinists of the Maryland Steel Company, at Sparrows Point, who went on strike about seven weeks ago, but because the company would not grant them a nine-hour day, met yesterday afternoon at the headquarters of the strikers, 413 Water street, and decided that the strike should be declared off. They also determined to return to work Monday next.

The striking machinists of the various Richmond establishments met at Smith's Hall yesterday, and appointed a committee to wait upon all the proprietors of the shops where they were employed and see if any satisfactory adjustment can be reached which will enable the men to resume work. This meeting has the power to declare the strike off, and may do so today.

The iron trade council has received favorable reports from the nine affiliated unions giving the council authority to effect settlement of the machinists' strike in the city, independent of what is done in the east. The council has, therefore, appointed a committee of five with full power to act, and to meet the employers, should they agree to confer. The strike of the metal polishers has been declared off.
